

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

August 28, 1989

OFFICE OF THE
LSS ADMINISTRATOR

Mr. Stephen Bradhurst
Planning Consultant
County of Nye
P.O. Box 1767
Tonopah, Nevada 89049

Dear Mr. Bradhurst:

I am writing in response to your August 14, 1989 letter which expressed concern that I did not communicate directly with Nye County on the creation of my office. I want you to know that in choosing to address my letter to the point of contact for each coalition and to send copies to other coalition members, I was certainly not implying any distinction as to the importance of the role of any organization in a particular coalition. I assumed that Mr. Bechtel was your coalition's point of contact since he represented Nevada local governments at the February 7, 1989 Commission meeting on the LSS rule.

I fully recognize the importance of Nye County's continued participation in the development of the LSS. In this regard, we are currently working on establishing the LSS Advisory Review Panel specified in Section 2.1011 of the LSS rule and we will be contacting you to request Nye County's participation on this Panel. In closing, I wish to emphasize my appreciation for your past efforts on the development of the LSS rule, and my desire to have Nye County fully participate in future LSS development activities.

Sincerely,

Lloyd J. Donnelly
LSS Administrator
