MEMORANDUM FOR: Paul T. Prestholt, Nevada Onsite Licensing Representative
 Division of High-Level Waste Management

FROM: Donald L. Chery, Jr., Section Leader
 Hydrologic Transport Section
 Geosciences and Systems Performance Branch
 Division of High-Level Waste Management

SUBJECT: NNWSI DATA RETRIEVAL

As discussed in the meeting with John Linehan January 5, 1989, the NRC technical review of NNWSI site characterization activities and eventual license application will need "read only" computer access to relevant technical data bases being maintained by DOE. We request your assistance in obtaining information to prepare the NRC staff for such access.

Please begin this preparation by obtaining for the NRC technical staff and forwarding to me as soon as possible copies of the following items:

- Copies of the documentation on data base descriptions.
- Operator manuals for the relational data base (INGRES) and the Interactive Graphics Information System (IGIS).
- Sandia Document Draft AP 5.2Q for the SEPDB.
- Documentation on the functioning of the Sandia Terminal Switching Network.
- All documentation on organization and structure of the Sandia Data Records Management System (such as SNL NNWSI Project DOP 11-3, "DRMs Interaction Requirements"; DOP 17-2, "Operations of the SNL NNWSI Data Records Management System"; DOP 3-11, "Computer User's Manual," etc.).
- All pertinent documentation on the Local Records Centers data bases for all other "participants."

Should you have any questions, please contact me at 492-3461.

Donald L. Chery, Jr., Section Leader
 Hydrologic Transport Section
 Geosciences and Systems Performance Branch
 Division of High-Level Waste Management
