Dear Dr. Vieth:

During July 17-20, 1984, members of the NRC technical staff and consultants conducted a design/rock mechanics data review at Yucca Mountain, Nevada and the Sandia National Laboratories in Albuquerque, New Mexico. Attached is the data review summary prepared by the rock mechanics/design team.

After we receive the remaining data requested of Sandia during the data review, we will analyze that data and provide you with the results of our critical review of that material and the data reviewed during the visit.

Sincerely,
