Donald L. Vieth, Director
Waste Managment Project Office
Nevada Operations Office
P.O. Box 14100
Las Vegas, NV 89114-4100

Dear Dr. Vieth:

We have received the data inventory that you transmitted on July 9. Based on our review of the inventory we have compiled a list of data that would be of greatest interest to us during the hydrology data review that will be held in Denver on July 24-27, 1984. The list was discussed during my July 20 telecon with Bill Wilson (U.S.G.S.) and Jerry Szymanski of your office and is attached as Enclosure 1. While the list presents the data of greatest interest, our review of those data may lead to a need to examine other data in the inventory as well. It is our expectation that such data would also be available for our review.

If you have any questions please contact Sylvie Olney on (FTS) 427-4783.

Sincerely,

"ORIGINAL SIGNED BY"
