**NNWSI PROJECT EA REFERENCE AVAILABILITY**

In an attempt to assist reviewers of the Nevada Nuclear Waste Storage Investigations Project Environmental Assessment, references were sent to your agency, the State of Nevada, and many libraries in Nevada on December 21, 1984. An additional mailing was shipped on January 10, 1985 which contained the final reports cited as "personal communications" in the EA text, some oversized materials (maps), and those references which were not available for shipment on December 21.

On January 9, 1985, you sent a letter to us acknowledging receipt of the first mailing and listing those references which you did not receive and which were not available in your files. Shortly after we received your letter, we shipped the references that you requested. We expect to send the last remaining references from Chapter 1 and Appendix A before the end of the month.

Should you or your staff have any questions on the references to be sent, please call Ralph Richards of my staff at FTS 575-1124 or Mary Lou Brown (SAIC) at FTS 575-0840.
