MEMORANDUM TO: John Monninger, Chief
Licensing Section
Spent Fuel Project Office, NMSS

FROM: James R. Hall, Senior Project Manager /RA/
Licensing Section
Spent Fuel Project Office, NMSS

SUBJECT: CALIFORNIA STATE HISTORIC PRESERVATION OFFICER
CONCURRENCE IN NRC DETERMINATION OF EFFECTS ON
HISTORIC PROPERTIES FOR THE PROPOSED DIABLO CANYON
INDEPENDENT SPENT FUEL STORAGE INSTALLATION
(TAC NO. L23399)

The purpose of this memorandum is to document the concurrence of the California State Historic Preservation Officer (SHPO), Dr. Knox Mellon, in NRC's determination of the effects on historic properties for the proposed Diablo Canyon Independent Spent Fuel Storage Installation (ISFSI). By letter dated July 2, 2003 (ADAMS accession no. ML031830830), I requested the SHPO's concurrence in our determination. The attachment to that letter described the NRC staff's basis for concluding that no adverse effects on historic properties would result from the proposed ISFSI, which relied upon the information provided in the ISFSI application submitted by the Pacific Gas and Electric Company on December 21, 2001.

Dr. Mellon returned my original letter with his stamp and signature, dated July 30, 2003, indicating his concurrence with our determination. That original letter with the SHPO's concurrence is attached to this memorandum, to provide a public record of that concurrence.

Docket No. 72-26

Attachment: Letter from J. R. Hall to Dr. K. Mellon, dated July 2, 2003, with concurrence stamp dated July 30, 2003
