REQUESTS FOR INFORMATION

You recently contacted us requesting information on several items in the NNWSI Project Monthly Report for March 1985. In one case, your request resulted from uncertainty as to identification of the participant responsible for a particular milestone. In the other two cases, the involved NNWSI Project organization was known but you were seeking additional information relative to the actual technical contact.

The purpose of this letter is to confirm that, in accordance with Section 3.B and Appendix 3 of the "Site Specific Agreement", it is the NNWSI Project policy to encourage technical exchanges between members of our respective staffs. Consequently, unless questions arise regarding which technical area or participant organization is the appropriate contact, the NRC representatives identified in Appendix 3 of the agreement should feel free to contact their counterparts within the Project without prior coordination through this office. We are, of course, available to assist where coordination or clarification is necessary.

Please contact J. S. Szymanski if you have any questions regarding this matter.
