Dr. Donald L. Vieth, Director
Waste Management Project Office
U. S. Department of Energy
Nevada Operations Office
P. O. Box 14100
Las Vegas, Nevada 89114-4105

Dear Dr. Vieth:

This letter confirms the agreement reached by J. S. Szymanski of your staff and N. K. Stablein of my staff during their July 3, 1985 telephone conversation that the NNWSI Project/NRC Exploratory Shaft Test Plan (ESTP) technical meeting will take place September 16-17, 1985 in Las Vegas, Nevada. This meeting was previously scheduled for September 17-18, in Washington, D.C. (tentatively). The changes in dates and locations were suggested because some NNWSI Project and NRC attendees at the ESTP meeting are also planning to attend the International Symposium on Coupled Processes Affecting the Performance of a Nuclear Waste Repository at Lawrence Berkeley Laboratory September 18-20, 1985. The changes enable those individuals to be present for both meetings.

If you have any questions about these matters, please contact N. K. Stablein (FTS 427-4611) of my staff.

Sincerely,

~~Signature~~

John J. Linehan, Section Leader
Repository Projects Branch
Division of Waste Management
