Dear Dr. Ballou:

We have received via your transmittal of July 31, 1985, the copies of viewgraphs used by the LLNL speakers during the Waste Package workshop held at Livermore July 23-24, 1985. If it is possible to obtain hard copy of J. Bates's slides used in his presentation, we would appreciate your assistance in obtaining that material.

Enclosed per your request are the viewgraphs used by NRC staff members in their two presentations during the NNWSI Project/NRC Waste Package meeting held at LLNL July 23-24, 1985.

If you need further assistance, please do not hesitate to contact Tom Jungling (FTS 427-4540) or me (FTS 427-4611).
