Dear Dr. Vieth:

As I have indicated in conversation with J. S. Szymanski of your staff and M. A. Glora of SAI, the NRC would like to have a visit to G Tunnel included in the upcoming Geology Data Review. The purpose of that visit is to enable the NRC staff geologists and NRC contractors to examine fresh lithologic exposures of stratigraphic units, to observe the nature of the contacts between units, and to check on the exposure mapping, as well as seeing the rock mechanics testing equipment facilities.

Please contact King Stablein or myself if you have any questions concerning this request.

Sincerely,

"ORIGINAL SIGNED BY"
