MEMORANDUM TO:

C. William Reamer, Chief and Performance Assessment  
High-Level Waste Branch  
Project and Engineering Section  
Division of Waste Management  
Office of Nuclear Materials Safety and Safeguards

FROM:

William L. Belke, Sr. On-Site Licensing Representative  
Projects and Engineering Section  
Chad J. Glenn, Sr. On-Site Licensing Representative  
Projects and Engineering Section

SUBJECT:

U. S. NUCLEAR REGULATORY COMMISSION ON-SITE  
LICENSING REPRESENTATIVES' REPORT ON YUCCA  
MOUNTAIN PROJECT FOR FEBRUARY 1, 1999, THROUGH  
MARCH 31, 1999

The purpose of this letter is to transmit the U.S. Nuclear Regulatory Commission (NRC) On-Site Representative's (OR's) report for the period of February 1, 1999, through March 31, 1999.

The principal purpose of the OR reports is to alert NRC staff, managers and contractors to information on U.S. Department of Energy (DOE) programs for site characterization, repository design, performance assessment, and environmental studies that may be of use in fulfilling NRC's role during pre-licensing consultation. The principal focus of this and future OR reports will be on DOE's programs for the Exploratory Studies Facility (ESF), surface-based testing, performance assessment, data management systems and environmental studies. Relevant information includes new technical data, DOE's plans and schedules, and the status of activities to pursue site suitability and ESF development. The ORs also participate in activities associated with resolving NRC Key Technical Issues (KTI). In addition to communication of this information, any potential licensing concerns, or opinions raised in this report represent the views of the ORs.

This report highlights a number of Yucca Mountain Project activities of potential interest to NRC staff. The ORs continue to respond to requests from NRC Headquarters staff to provide various documentation and feedback related to KTIs and their resolution. During this reporting period, the ORs continue to observe activities associated with Yucca Mountain Site Characterization, KTIs, and auditing. The ORs also attended a number of meetings and accompanied NRC staff on visits to Yucca Mountain.

If you have any questions on this report or its enclosures, please call William L. Belke on (702) 794-5047 or Chad J. Glenn on (702) 794-5046.
