"INFORMAL COMMUNICATION"

17.7.1 PURPOSE

This procedure describes the steps necessary for the acceptance of data generated before August 1980 into the quality assurance records system. This procedure also describes the steps necessary for the acceptance of non-NNWSI Project data or data from a technical journal.

17.7.2 SCOPE

This procedure applies to all NNWSI Project data generated before August 1980 that will be used as primary data for a license application or that is essential to support a Quality Assurance (QA) Level I activity. This procedure also applies to data from non-NNWSI Project participants or data from technical journals that will be used as primary data or as essential support data for a QA Level I activity.

Data generated from August 1, 1980 through July 6, 1985 that is a candidate for use as primary data for license application or as essential support data for a QA Level I activity will be processed through 033-NNWP-P 15.0 "Nonconformances". If found adequate it will be accepted into the QA Records system for use as primary or essential support data.

17.7.3 RESPONSIBILITIES

The NNWP Project Leader for NNWSI (NNWSI Leader) is responsible for the overall implementation of this procedure. Specific responsibilities are outlined in Section 17.7.4 of this procedure.

17.7.4 PROCEDURES

Data generated before August 1, 1980 must be accepted into the quality assurance records system to be part of the license application before January 31, 1980. This restriction does not apply to non-NNWSI generated data or data from a technical journal.
