See attached list

Due to the redirection of the High-Level Nuclear Waste Program brought about by the Nuclear Waste Policy Amendments Act of 1987, the U.S. Nuclear Regulatory Commission (NRC) will be limiting the distribution of their weekly notice of upcoming meetings and the distribution of all other significant NRC high-level waste documents to the State of Nevada and other parties still involved in the high-level waste repository program.

You are scheduled to continue to receive the above information. If you do not wish to continue to receive it, please notify Eileen Tana, Operations Branch, Division of High-Level Waste Management, as soon as possible, and she will have your name removed from the mailing list. Ms. Tana may be reached by phone on (301) 492-0438.

If you do not need the above information, but would like to receive notices of availability of significant high-level waste documents, let Eileen Tana know and she will transfer your name to the appropriate mailing list.

Sincerely,

/s/
