(Return to WM, 623-SS)

Dear Mr. Wick:

Revision of BNL Report on Waste Package Reliability
(NUREG-0997, November 1983)

As requested by your letter, dated August 16, 1984, BNL will revise the subject report to incorporate valid DOE review comments. Cesar Sastre informs me that he contacted you today (August 21) and that it was mutually agreed that the work was of top priority and would require the full-time efforts of himself and Drs. Pescatore and Sullivan to complete the task by your September 14, 1984 deadline. This means, of course, that their current involvement in the waste package computerized data base (FIN A-3164) and the Environmental Assessment report reviews (FIN A-3167) will need to be temporarily halted.

Please call me if you have any questions on this matter.

Sincerely,

Peter Soo, Associate Division Head
Nuclear Waste Management Division
