| SUMMARY | Mentioned | that we are wor | king with Carl | Cooley to | set | up inform | al lines of |
| COL | municatio | n between NRC a | nd DOE staff, t | hat we wer | re 10 | oking for | ward to working |
| wi | th NNWSI p | eople in that w | ay, and that my | call would | d no | t circumv | ent existing |
| pri | ocedures. | I explained th | at we have now | set up pro | ject | teams for | r BWIP and |
| NTS | S and that | I will be proj | ect manager of | our NTS te | am. | | |
| 2. Nei | lson told m | e that he had | sent to DOE head | dquarters | a lis | st of pote | ential issues |
| tha | at could be | taken up with | NRC. He said | that the a | ppro | oriateness | s of many of |
| the | e issues de | epended on whic | h tuff bed is u | Itimately | chos | en as a po | otential |
| rej | pository ho | orizon so that | he had also sen | t a schedu | le of | f decision | n points. As |
| an | example, t | ne noted that b | ecause the beds | dip, thir | bed | i lead to | problems in |
| des | ign and no | ted that some | of the shallowe | r beds are | thic | cker than | the deeper |
| bed | ls. Also, | he explained t | o me that the m | ore that t | he so | chedule fo | or starting an |
| ext | loratory s | haft is moved | up, the more 11 | kely it wo | uld l | be that a | bed would be |
| chc | sen in the | unsaturated z | one because the | y have mor | e ext | perience w | with such beds. |
| In | both conne | ctions he note | d that there ma | y be conce | rn w | ith our 10 | 0 CFR 60 criter |
| reg | arding a m | inimum repositi | ory depth of 30 |) meters. | | | ************************************** |
