 (K)

Dear Office of Public Affairs:

After twice trying to send the message below to the NRC the San Luis Obispo Co. GREEN Party asks you to forward our request for extension of the dead line for comments on the Generic Re-licensing EIS for nuclear power plants to the proper place. Please confirm that the appropriate agency received our request. We would like to add at this time that even an extension to November 30th doesn't seem unreasonable given the 20 year in advance re-licensing procedure.

For the SLO GREENS

Klaus Schumann

The San Luis Obispo Mothers for Peace would like to request that comments be extended to Sept 15th. As these license renewals are being granted 20 years in advance, we do not believe this is an unreasonable request.

In Peace

Rochelle Becker
