REQUEST FOR COLOR PRINTS OF YUCCA MOUNTAIN CORE BOXES

The Waste Management Project Office, DOE/NV, hereby requests 10 sets of 8"x10" color prints of all Yucca Mountain core boxes. This request entails making about 15,000 prints from about 1,500 negatives. A completion date of on or before December 15, 1984 is requested.

The 10 sets of prints are needed to satisfy present and future regulatory, institutional, and documentary requirements. The request for color and the size specified is necessary to bring out adequate detail in the drill cores displayed in the core boxes. Due to the large size of this request, a late completion date has been set to minimize overburdening your staff and \$12K will be added to the Waste Management budget allocation of the DOE/NV portion of the contract with Pan Am to cover the unscheduled photographic costs of this request.

Please package each set of prints separately by drill hole and have the 10 sets of prints delivered to the Waste Management Project Office in Las Vegas, DOE/NV Building, 2753 South Highland Drive, Mail Stop 505, Room E108.

Donald L. Vieth, Director
Waste Management Project Office
