Subject: Release of narrowed request from Indian Point PRA
Place: PDR@nrc.gov

The NRR review team has reviewed the narrowed request (Section 7.6 on aircraft accidents) from the 1982 PRA studies for Indian Point 2 & 3. We would not release the information from NRC sources. In addition, we would urge that the member of the public with copies of this information also withhold from making the information more broadly available than it already is. Call me (x2429) if you have any questions.
