Subject: Fwd: Draft SRM on COMSECY-01-0030 Guidance on Release of Information to the Public

Mike, attached is version B of the draft SRM on release of info to the public. It appears that our comments on the original draft SRM weren't well received. There has been no changes in guidance for event and plant status reports or management review of decisions to withhold information.

Mindy has called a meeting this afternoon to discuss the draft SRM. I can only attend part of the meeting since it conflicts with our Guild meeting. Bill Reckley will also be at Mindy's meeting and is able to stay the whole time. I will meet with Bill afterward to find out what happened.

Margie
