Mr. Earle Amey
Division of Minerals, Health and
Safety Technology
2401 E. Street, NW
Washington, DC 20241

Dear Mr. Amey:

This letter is to confirm a conversation I had with E. Corp of the Spokane Research Center and E. Hollop of the Denver Research Center of the Bureau of Mines. Mr. Hollop and Mr. Corp will attend a workshop on November 28 - December 1, 1983 on In-situ testing at BWIP for NRC. A copy of the document that is being produced by DOE on In situ testing will be sent to Mr. Corp and Mr. Hollop for their review for the meeting. Also in my conversation with E. Corp he stated that he will most likely not be able to attend the meeting but will instead send his assigned NRC backup person to the meeting.

The action taken by this letter is considered to be within the scope of the current interagency agreement (NRC 02-80-075). No change of costs or delivery of contracts products are authorized. Please notify me immediately if you believe this letter would result in charges to costs or delivery of contracted projects.

Sincerely,

David H. Tiktinsky
Engineering Branch
Division of Waste Management
