Subject: Question on review/approval

We recently rec'd a request asking if the following document will be returning to the external site. Has this document been reviewed for sensitivity? And if so has a decision been made on whether we can return this material to the external site? And if not, can you review and let me know?

The document I am asking about can be reviewed at the following URL:

<http://www.nrc.gov:201/NRC/NUREGS/SR1603/index.html>
Database"

"Individual Plant Examination

Thanks
