Subject: Review of McGuire License Renewal EIS
Place: NRR_INFOREVIEW

All:

Conchita See asked that I send you an e-mail request to review the EIS for McGuire license renewal for sensitive information. This LR EIS is patterned after the EISs for Surry and North Anna that have gone out recently. They were written by the same lab teams, so they have been prepared with the requisite sensitivity to the security issue.

I need to get the document to the printers by Thursday to make the Commission Tracking System date that is coming up. Conchita will need to get with Joan Hoffman so that it can be posted on the web once it is issued.

I delivered the document to Sally Jewell earlier this afternoon and I hope that started the review.

Please let me know if there is something more that I need to be doing to move the package along.

Thanks, Jim.
