

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

AUG 11 1983

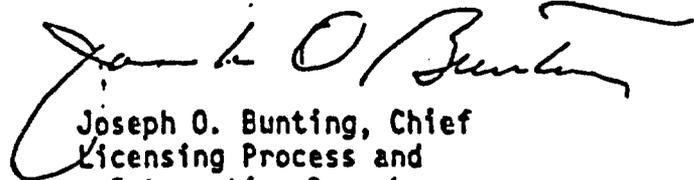

MEMORANDUM FOR: Robert S. Brown, Assistant to the Director
and Chief, Program Support Branch, NMSS

FROM: Joseph O. Bunting, Chief
Licensing Process and Integration Branch
Division of Waste Management

SUBJECT: CONTRACTOR AND NATIONAL LABORATORY DOCUMENTS TO PUBLIC
DOCUMENT ROOMS

Beginning immediately, the Division of Waste Management, Docket Control Center, will be sending all technical high-level waste contractor documents to the NRC Public Document Room at 1717 H Street and all appropriate waste site Local Public Document Rooms unless the contractors have notified us that the reports contain proprietary information. This technical information is received by WM in the form of monthly letter reports, interim and draft task reports, etc. An effort will be made to exclude all administrative documents from this process.

We request the contractors and national labs be notified of this procedure and be encouraged to submit administrative (cost manhours, etc.) and proprietary information separate from the technical information. If the administrative material is received separate from the technical material, WM will not send this information to the PDR's but retain this administrative information in the division Record Files in the Docket Control Center. Those documents which the contractors and laboratories deem proprietary should be properly identified in accordance with 10 CFR Part 2.790, Availability of Official Records, and will not be sent to the PDR's.

Joseph O. Bunting, Chief
Licensing Process and
Integration Branch
Division of Waste Management
