Please feel free to post Supplement 7. The review team has looked at the NUREG-1437 and the supplements (1 through 9) and all of them can be posted.

I also received permission to post for Supplement 7, but I need an email approval for Supplement 8 which I have received from Linda Stevenson today. Thanks
Joan

The NRR info review team has reviewed NUREG 1437 and the supplements for the individual license renewals (including Supplement 9 for Catawba). The review did not identify any sensitivity concerns that would warrant withholding the reports from the web site. Please feel free to post supplement 9 as well as the earlier supplements (if there is any desire to add them to the document collection).
