Subject: Ballot to Resolve Negative/Primary Comments of June 23, 1998 Ballot

The June 23, 1998 ballot resulted in 18 votes to approve, 7 vote to not approve, 1 abstention and 1 ballot not returned. At least 50 percent voted to approve (67 %), and at least 2/3 of the yes and no votes (72 %) voted to approve. A ballot is enclosed in order to resolve the negative and primary comments.

The ACI Technical Staff performed the required editorial review. Most of their editorial recommendations, as well as almost all of those received from the ACI 355 Committee, were accepted.

Included in this mailing are:

- The ballot document, containing "persuasive comments with substantive changes", and "nonpersuasive" comments;
- A summary of all 117 ballot comments, giving the voter's comments and recommended vote for the ballot, keyed to the ballot document;
- A copy of all ballot comments received, including editorials; and
- A copy of the edited document also containing the recommended substantive changes.

Please note that this ballot has a shorter deadline, until August 25, 1998. This is done so that we can make the ACI Technical Activities Committee schedule for a review at the October Convention.

*

Some significant edits and changes in the draft are:

- Conformance with ACI 318, Appendix D as modified;
- The term "fastener" has replaced "anchor" to conform to ACI 318, Appendix D, and to avoid conflict with other anchorage provisions in 318;
- Per Klingner negative and proposed resolution, Suitability Tests are renamed Reliability Tests;
- The method of calculating the categories uses more tests and is simplified (Section 10);
- Keywords shortened and placed on a new cover page; and
- A Table of Contents page.

Instructions for balloting:

For ballot items to be found "persuasive," vote yes to agree that the item is persuasive; vote no, if you disagree. Then, vote yes to agree with the substantive change; vote no to disagree. If you vote no on the substantive change, you need to include your reason(s) for the no vote. Persuasive items have this two-step vote process.

For ballot items to be found "nonpersuasive," vote yes to agree that the comment is nonpersuasive, vote no if you think the comment should be persuasive.
