(Return to WM, 623-SS)

Dear Mr. Murphy:

We have received Weston Geophysical's July Monthly Progress Report, dated August 14, 1984, summarizing progress during the month of July under contract NRC-02-84-001 (FIN D1003).

We confirm that no task orders were issued during the month of July under this contract. Progress to date is satisfactory. Please note that these monthly progress reports are required to be received by the NRC Division of Waste Management Document Control Center by the 15th of the following month. Your July report did not make this deadline. To avoid this problem with future reports, please mail the report to me no later than the 12th of the following month.

At this time Weston should be reviewing the Draft Environmental Assessments under Task Order #003. For clarification, the following list itemizes the Geology-Geophysics Section's plans for technical assistance from Weston in September and October:

Meeting	Date	Task Order No.
1. EA Review Plan Scoping Meeting - Silver Spring, MD	September 10 - 14	004
2. NNWSI Data Review - On-Site; Menlo Park, CA; and Denver, CO	September 17 - 28	005
3. Paradox Basin Data Review Walnut Creek, CA	October 15 - 17	006

Action taken by this letter is considered to be within the scope of the current contract (NRC-02-84-001). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you
