Dear Dr. Siegel:

SUBJECT: CONTRACT NO. 50-19-03-01/FIN A-1756, "GEOCHEMICAL SENSITIVITY ANALYSIS"

I have reviewed the March, 1987 monthly progress report for the above contract, dated April 15, 1987. Based on my review of this report, progress to date is satisfactory.

I feel that your visit to the NRC on April 28-29 was beneficial and constructive. As we discussed, please send me an updated schedule of milestones. Also, please do not forget to send me a copy of the abstract for the Geostatistical Sensitivity Modeling meeting so that I may begin writing. Enclosed please find the following draft SCP chapters for your information: geochemistry (NNWSI and BWIP), geology (NNWSI and BWIP), and hydrology (NNWSI). The draft hydrology chapter for BWIP is not yet available. There is no separate chapter for performance assessment. I also enclose an annotated outline of section 8.3 for Deaf Smith, the Site Characterization Program, for your information. Also enclosed please find some notes on the radionuclide solubility program being undertaken by SRPO.

The action taken by this letter is considered to be within the scope of the current contract FIN A-1756. No changes to costs or delivery of contract products is authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products.

Sincerely,
