I have reviewed the May, 1986 monthly progress report for the above contract, dated June 15, 1986. Based on my review of this report, progress to date is satisfactory. Under separate cover, I am sending you copies of the final Environmental Assessments. At a later date, I will send you copies of the comments we develop for your information.

I received the information on ranking of radionuclides from Linda Kovach, and will review it as time permits. I will also show it to Tin Mo for his information.

I endorse your interactions with our contractors from NWC. Please keep me informed of the results of your interactions.

Our contractors at Oak Ridge are planning to hold a short course on the use of EQ3/EQ6 on July 28-29, 1986. Dr. Terri Bowers of MIT will be the instructor. If you are interested in participating, please contact Gary Jacobs at Oak Ridge.

I may try to come to Sandia at the end of the summer. Our Division Director, Robert E. Browning, has expressed an interest in visiting all of our division contractors, so he may be coming with me. I will keep you informed as to our plans. I will be out of the office until July 21.

The action taken by this letter is considered to be within the scope of the current contract FIN A-1756. No changes to costs or delivery of contract products is authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products.

Sincerely,

WM-RES
