Dr. Robert M. Cranwell
 Sandia National Laboratories
 Waste Management Systems
 Division 6431
 P.O. Box 5800
 Albuquerque, NM 87185

SEP 12 1986

Dear Dr. Cranwell:

SUBJECT: COMMENTS ON MONTHLY REPORT FOR FIN A1165 (JULY 1986)

I have received your report summarizing the activities during the month of July for FIN A1165. I have reviewed the report and have the following comments:

1. Under Task I, no mention is made of whether the task is on schedule. Since Sandia has been providing other assistance to the NRC within this contract and R.V. Guzowski will not be available to work on this task for a period of several months, I would like to know how these changes will effect the schedule of Task I.
2. Under Task III, you mention that the last three draft chapters of the Probability report should be ready for submission to the NRC by mid-August. These chapters have not been received to date. Could you provide us an alternative submittal date for these chapters. In addition, you mentioned that Sandia is considering a suggestion made by Mr. Holland that the geochemisty chapter should be treated in a different manner than the others in the report. If at all possible this subject should be discussed in our meeting re-scheduled for September 23. A copy of this chapter should be provided to us at the meeting, or earlier if at all possible.

The action taken by this letter is to be considered within the scope of the current contract (FIN A1165). No change to cost or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in change to cost or delivery of contracted products.

Sincerely,

Digital Signer
