Dear Dr. Rajaram:

We have reviewed your monthly progress report for the month of April submitted under the Nuclear Regulatory Commission (NRC) contract No. NRC-02-82-030 entitled, "Technical Assistance for Design Reviews."

The following comments are provided and should assist you in preparing the next monthly report:

Section 1.0 - Introduction

Task Order 002

The 25.5 hours shown under the Task II column should be under Task I because only Task I efforts were performed during April.

Section 3.2 - Results

Task Order 004

The draft design, issues and Site Technical Positions (STPs) prepared under this Task Order were received and are being reviewed.

Section 6.0 - Activities Planned for the Next Reporting Period

Task Order 003

We are presently reviewing the draft letter report on exploratory shaft construction.

The action taken by this letter is considered to be within the scope of the current contract No. NRC-02-82-030. No change to costs or delivery of contracted products is authorized. Please notify me immediately if

you believe this letter would result in changes to costs or delivery of contract products:

Sincerely,

"ORIGINAL SIGNED BY"

Truman L. Seamans, Project Manager
High-Level Waste Technical
Development Branch
Division of Waste Management
