Subject: Action: Negative SG Performance Review on Web Site

A July 16, 2001 NRC PERFORMANCE REVIEW of a fuel facility notes "Inconsistent surveillance of the facility and vehicles to prevent theft of SNM." <http://www.nrc.gov/OPA/reports/qnf071601.pdf> This is no problem if it has since been corrected. By copy of this e-mail I am asking the PM for the site to verify that it is no longer a concern.
