Sandia National Laboratories  
Albuquerque, NM 87185

Dear Dr. Siegel:

SUBJECT: CONTRACT NO. 50-19-03-01/FIN A-1756, "GEOCHEMICAL SENSITIVITY ANALYSIS"

I have reviewed the September 1987 monthly progress report for the above contract, dated October 15, 1987. Based on my review of this report, progress to date is satisfactory.

I received the monthly report for September via express delivery on or about October 23 in a package which also contained several other monthly reports for NMSS contracts. Attached was a note explaining that this was done to conserve funds, and asking me to distribute these documents to the appropriate NRC personnel. If the monthly reports will now be transmitted from Sandia to the NRC in a single package via express delivery, this package should be sent directly to Eleni Davis. This will lessen the possibility that distribution of the monthly reports will be delayed. I am not responsible for, and should not receive, documents for contracts other than FIN A-1756, "Geochemical Sensitivity Analysis."

The correct address for express delivery of contract packages is as follows:

Eleni Davis, Contract Specialist  
Mail Stop 958-SS  
U.S. Nuclear Regulatory Commission  
Office of Nuclear Material Safety and Safeguards  
7915 Eastern Avenue, Willste Building  
Silver Spring, MD 20910

The action taken by this letter is considered to be within the scope of the current contract FIN A-1756. No change to costs or delivery of contract
