Dear Dr. Cranwell:

(Return to WM, 623-SS)

I have received your report summarizing the activities during the month of February for FIN A-1755. Your report sufficiently addresses the details necessary to effectively monitor this contract. We have additionally received written comments by J. Daemen on the DOE Draft Environmental Assessments and trip reports by K. Wahi on Rock Mechanics Course in St. Louis and on Workshop followed by Technical Review Meeting in Berkeley, California. The above are being reviewed by the NRC staff and we will pass on the results of our review to you, as needed.

The action taken by this letter is considered to be within the scope of the current contract (FIN A-1755). No changes to cost or delivery of contracted products are authorized. Please notify me immediately (FTS 427-4319) or John Peshel (FTS 427-4735) if you believe this letter would result in changes to cost or delivery of contract products.

Sincerely,

ORIGINAL SIGNED BY

Mysore S. Nataraja, Section Leader
