Distribution:

Dr. Evaristo J. Bonano  
Waste Management Systems  
Division 6431  
Sandia National Laboratories  
Albuquerque, New Mexico 87185  
(Ref: to WM, 623-SS)

Dear Dr. Bonano:

I have received your report summarizing the activities during the month of December for FIN A-1755. Your report sufficiently addresses the details necessary to effectively monitor this contract. I have additionally received the following items:

- Written comments by J. Daemen and by K. Wahi on Draft Generic Technical Position on Design Information Needs in the Site Characterization Plan.
- Revised description of proposed new activities for FIN A-1755 during FY85 (first revision dated December 18, 1984).
- Revised description of proposed new activities for FIN A-1755 during FY 85 (second revision dated January 17, 1984).

The above are being reviewed by the NRC staff and we will pass on any comments to you.

We request one SNLA staff member involved in this project to attend a workshop in Berkeley, California, on "Coupled Thermal-Hydrological-Mechanical-Chemical (THMC) Effects in rock" at the offices of Lawrence Berkeley Laboratory, during February 26-28, 1985. The attendee shall be knowledgeable in thermo-mechanical modeling and conversent with the latest developments in THMC studies being conducted by NRC and its contractors.

The action taken by this letter is considered to be within the scope of the current contract (FIN A-1755). No changes to cost or delivery of contracted products are authorized. Please notify me immediately (FTS-427-4319) or
