Dear Dr. Nataraja:

The revised version of proposed new activities that was sent to the NRC on December 18, 1984 contains two statements that are potentially misleading. Specifically, the last paragraph on the first page and the last paragraph on the second page seem to imply that the DVM model currently exists in the DNET code; this is not the case. A corrected version of the document summarizing the proposed activities is enclosed. We apologize for any inconvenience that might have been caused by the inadvertent error in the previous version.

Sincerely,

*R. M. Cranwell*
