SUBJECT: COMMENTS ON MONTHLY REPORT FOR FIN-A1165 (March, 1987)

Dear Dr. Cranwell:

I have received your report summarizing the activities during the month of March for FIN-A1165. Comments on the monthly report, as well as some additional comments are as follows:

1. Under Task III, you indicated that Chapter 10 is to be substantially rewritten by the end of May. Please indicate what effect the completion date for the rewrite will have on the due date for the final report of June 30, 1987.
2. In our meeting of February 18, 1987, comments on the scoping report for Volume II of the Probability Report were discussed and based on these comments, Sandia indicated the scoping report would be revised. In the next monthly report, please provide the date by which the revised scoping report will be provided.
3. Under Task IV, Sandia was asked to review the materials NRC received from DOE on the Generic Issues Hierarchy. In the next monthly report please indicate when the NRC will be receiving the results of Sandia's review.
4. Attached to this letter for your information are the NRC comments on chapters 3 and 8 of the probability report, a report by the American Chemical Society on Peer Review, and responses to your comments on the Aerospace Demonstration Report by Stevens & Associates. If you have any comments or questions regarding the information provided by Stevens & Associates, please let me know.
