

OCT 31 1986

Dr. Dae Chung
Staff Scientist
Lawrence Livermore National Laboratory
University of California
Livermore, CA 94550

Dear Dr. Chung:

In accordance with Task II of Contract A-0297, I request that you initiate a review of the final draft report, "Survey of Geophysical Techniques for Site Characterization in Basalt, Salt, and Tuff," prepared by the Weston Geophysical Corporation. This report has been sent to you under separate cover. This review is considered to be an evaluation of a recent document relevant to Task I issues. The review should be transmitted to the NRC in a topical letter report including a standard WMGT Document Review Summary. It is anticipated that this task shall require one staff-week of effort to be accomplished by November 21, 1986.

The action taken by this letter is considered to be within the scope of the current contract (A-0297). No change in costs or delivery of contracted products is authorized. Please notify me immediately if you believe that this letter would result in any changes to costs or delivery of contract products.

Sincerely yours,

MS

Michael E. Blackford, Project Manager
Geology/Geophysics Section
Geotechnical Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
