Dear Dr. Chung:

We have reviewed LLNL Monthly Management Letter No. 3, dated November 5, 1986 that summarizes progress under FIN A-0297 for the month of October, 1986. Progress to date appears to be satisfactory. We have the following comments:

Based upon information sent to you and upon our discussions at the contract coordination meeting on November 18, 1986 please, prepare a list of potential reports that you feel the LLNL will be able to produce during the remainder of the fiscal year. It is recognized that the NRC will not expect you to actually produce these reports unless you are specifically tasked to do so. Please submit this list to me as soon as possible so that we may be able to establish milestones for accomplishing our FY 1987 work plans.

Attachment A of this Monthly Management Letter contains information for the month of September and indicates that these expenditures were the initial expenditures under FIN A-0297. It states further that there was a prior year carryover and, considering this carryover, that two-thirds of the FY 1986 funds to date had been expended. It seems as though some of the information on Attachment A is applicable to FY 1986 and some is applicable to FY 1987. Please clarify the financial status of A-0297 since its inception in your October financial statement.

The action taken by this letter is considered to be within the scope of the current contract (A-0297). No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

*151*
