FEB 19 1987

Dr. Dae Chung
Staff Scientist
Lawrence Livermore National Laboratory
University of California
Livermore, CA 94550

Dear Dr. Chung:

We have reviewed LLNL Monthly Management Letter No. 6, dated February 5, 1987 that summarizes progress under FIN A-0297 for the month of January, 1987. Progress to date appears to be satisfactory. We have the following comments:

We have received Norm Burkhard's report on his review of the U.S. Geological Survey's OFR 83-912, "An evaluation of Seismic Reflection Studies in the Yucca Mountain Area, Nevada Test Site," and the Weston Geophysical Corporation report, "Survey of Geophysical Techniques for Site Characterization in Basalt." We have also received Larry McKague's report on the potential for volcanism at the Nevada Test Site and its immediate vicinity. These documents have been given to the NNWSI lead, Charlotte Abrams, for her review and comment.

We recently sent you a Telegraph Exploration, Inc. report, BMI/ONWI-621, entitled, "Petroleum Potential of Two Sites in Deaf Smith and Swisher Counties, Texas Panhandle," as well as two of the referenced documents, BMI/ONWI-589 and BMI/ONWI-590. We shall be sending you a task letter to formally review BMI/ONWI-621.

The action taken by this letter is considered to be within the scope of the current contract (A-0297). No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

151

Michael E. Blackford, Project Manager
Geology/Geophysics Section
Geotechnical Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
