MEMORANDUM TO: John Reuss
Division of Minerals Availability
U.S. Bureau of Mines

FROM: Richard Lee, Project Officer
Geotechnical Branch
Division of Waste Management

SUBJECT: TRANSMITTAL OF NRC FURNISHED MATERIALS ASSOCIATED WITH
INTERAGENCY AGREEMENT # NRC-85-02-004

This is to transmit NRC furnished materials associated with the subject Interagency Agreement, Section E. These materials (listed in Attachment #1) are being furnished to Don Bleiwas of the Minerals Availability Field Office and Nick Wetzel of the Western Field Operations Center. In addition to those materials, general materials are also being provided as background for the commencement of work associated with forthcoming Task Order #002. Review of these general background materials should begin at the time of their receipt. As these are background materials, submittal of a written review, in the form of a letter report, is not necessary. However, both Don and Nick should make themselves fully familiar with these materials.
