A meeting was held in at NRC offices on September 23, 1986, with representatives of the NRC and USBM in attendance. Discussion involved review of the draft methodology report. The task order 003 draft methodology report for natural resources assessment is now being revised by the USBM. No major revisions are required and no delay is anticipated in receipt of the final report.

Future work directives under task order 002 were also discussed at the September 23, 1986, meeting. Under task order 002 work directives will involve more site specific assistance in preparation for review of the SCP's for each of the three HLW sites. A listing of possible future work directives under this task order will be drawn up by NRC geologic leads for each HLW site. This listing will be transmitted to the BOM by the end of October, 1986.

Two work directives under task order 002 will be sent to the USBM within the next few days. These work directives involve the Deaf Smith and Yucca Mountain sites.

Personnel time expenditures for the reporting period include:

Western Field Operations Center - 188 hours
Minerals Availability Field Office - 45 hours
Division of Minerals Availability - 0 hours

Costs for the reporting period WFOC - \$3502.41
