Memorandum

To: Charlotte Abrams, Project Officer, Geotechnical Branch,
Division of Waste Management, U.S. Nuclear Regulatory Commission

From: Ransom F. Read, NRC Program Manager

Subject: IC 9035, "Principal Deposits of Strategic and Critical Minerals in Nevada."

In response to your request, Bureau of Mines IC 9035, "Principal Deposits of Strategic and Critical Minerals in Nevada," is enclosed.

This publication presents non-sensitive information (no costs) on significant mineral deposits in Nevada evaluated by the Minerals Availability program. Site-specific production costs for domestic and foreign identified resources, developed by the program, and regional infrastructural information are necessary to gauge the availability of minerals essential to the U.S. economy. Similar publications for other states are in progress.
