

NOV 3 1987

Dr. Dae Chung  
Staff Scientist  
Lawrence Livermore National Laboratory  
University of California  
Livermore, CA 94550

Dear Dr. Chung:

We have reviewed LLNL Monthly Management Letter No. 14, dated October 5, 1987, that summarizes progress under FIN A-0297 for the month of September 1987. Progress to date appears to be satisfactory. We have the following comments:

The products mentioned in this Monthly Management Letter involving activities concerning the NNWSI and BWIP projects were received during the first part of October. These products include Larry McKague's meeting reports on the AAPG Rocky Mountain Section Meeting of September 15-16, 1987, and the DOE briefing on the NNWSI Project Seismic/Tectonic Site Characterization Plan Strategies of September 22-23, 1987. They also include Richard Galster's field trip report on the field review of the Smyrna Bench geology and the examination of the Bureau of Reclamation trenches at Smyrna Bench and O'Sullivan Dam, which took place on September 29-30, 1987.

Review of material provided to you concerning the Hanford site (BWIP Doc. Nos. SD-BWI-TI-293, GS-GW-101, and SD-BWI-ER-005) should be progressing at a pace sufficient to provide us with preliminary reports which can be used at a DOE-NRC stratigraphy workshop and field review. This workshop and field review is now tentatively scheduled for the first week of December. Your review of these documents is anticipated to be completed prior to the arrival of the SCP consultation drafts in early January.

The action taken by this letter is considered to be within the scope of the current contract (A-0297). No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

151

Michael E. Blackford, Project Manager  
Geology/Geophysics Section  
Technical Review Branch  
Division of High-Level Waste Management  
Office of Nuclear Material Safety  
and Safeguards
