John Reuss, Deputy Chief Division of Minerals Availability U.S. Bureau of Mines 2401 E Street NW Washington, D.C. 20241

SUBJECT: COMMENTS ON FINAL OUTLINE FOR TASK ORDER 003 METHODOLOGY REPORT

I am in receipt of your April 30, 1986 revision to the Task Order 003 methodology report outline. It is consistent with my April 15, 1986 comments on the previous outline edition, and work should now proceed on the development of the draft report.

At appropriate intervals in the development of the draft report, it may be wise to consider informally submitting portions of the draft as they are completed. We can discuss the advisability of such a plan as work proceeds.

The action taken by this letter is considered to be within the scope of the current contract (NRC-02-85-004). No change to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contract products.

IS/ Richard Lee, Project Officer Division of Waste Management Office of Nuclear Material Safety and Safeguards
