Dear Steve:

Please find enclosed a copy of a Review of Rock Mass Sealing Information and Research Needs, prepared at the request of NRC, Research.

If you have the time I would very much appreciate it if you could look over Section 2, Ongoing Sealing Research, especially the second half of it, starting near the middle of page 4. This deals with currently active research, and is largely based on talking to people. I am rather uncertain as to how complete this is. If I have overlooked some projects of which you are aware, I would very much appreciate hearing about them, and also, especially, if any of my information is incorrect.

Yours very truly,

Jaak J.K. Daemen
