RE: BWIP

Dear Dr. Williams:

Please find enclosed the report entitled "Groundwater Travel Time Analysis for the Reference Repository Location at the Hanford Site," SD-BWI-TI-303. Under Subtask 2.2 of NRC Contract NRC-02-85-008, I request that you informally review this report in preparation for your review of the Final Environmental Assessment (EA) for the Hanford Site. Comments and conclusions about the report should be appropriately incorporated into any comments you may have on the Final EA. I anticipate that your informal review will require no more than 1 staff week of effort.

NRC has requested formal reviews of this report from Nuclear Waste Consultants and Sandia National Laboratory to be completed by May 30, 1986. Feel free to communicate any comments you may have about the report to both of these consultants. If you have any questions about your review, please contact Michael Weber at telephone number (301) 427-4746.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-85-008. This letter does not authorize changes to the cost or delivery of contracted services or products. Please contact me immediately if you believe this letter would result in changes to cost or delivery of contracted products.

Sincerely,

15/  
Jeffrey A. Pohle, Project Officer  
Geotechnical Branch  
Division of Waste Management
