Dr. Roy E. Williams
Williams and Associates, Inc.
P. O. Box 48
Viola, Idaho 83872

RE: BWIP

Dear Dr. Williams:

Under current NRC contract NRC-02-85-008, I request that Williams and Associates participate in the BWIP Hydrology Data Review on December 2-5, 1986, at Richland, Washington. I anticipate that you will participate in the Data Review along with Dr. Dale Ralston and Mr. Gerry Winter. As we have already discussed with you, the NRC review team will also be visiting In Situ Inc.'s field testing site at Creston, Washington and the Bunker Hill Mine in Idaho on December 1, 1986. The entire NRC review team will assemble at the Gateway Motel in Spokane, Washington, at 8:00 am on December 1. After a discussion about the Creston site, the team will divide with half visiting the Creston site and the other half accompanying you to visit the Bunker Hill Mine. I request that Mr. Winter participate in the Creston site visit and that you and Dr. Ralston coordinate the visit to the Bunker Hill Mine. Both teams should both arrive in Richland, Washington, by 8:00 pm on December 1 to make necessary preparations for the start of the Data Review the next day.

Please find enclosed a copy of In Situ Inc.'s most recent quarterly report for the period July-September 1986 entitled "Flow of Groundwater and Transport of Contaminants through Saturated Fractured Geologic Media from High-Level Waste." This report summarizes recent activities at the Creston site. Mr. Winter should familiarize himself with the information in the report prior to the Creston site visit on December 1.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-85-008. This letter does not authorize changes to the cost or delivery of contracted services or products. Please contact me
