Docket No.

PDR

XLPDR (B, N, S)

Distribution:

(Return to WM, 623-SS)

Dear Mr. Murphy:

I have received Weston's Geophysical Monthly Progress Report No. 40 for July 1987, summarizing progress under contract NRC-02-84-001.

So far I have not heard from DOE about the date for the NNWSI SCP briefing, as soon as I have a fixed date I will inform you. Two weeks ago I had the opportunity to visit Shell oil in Houston and I examined some of the reflection seismic data they acquired in the vicinity of the Hanford reservation. The quality of the data and the processed section I examined are very excellent. In this section you can identify the top, the base and the interbedded layers in the Columbia Basalt Formation. For your information I am enclosing the letter of Instruction which had been written by BWIP Soliciting proposals for seismic reflection testing. If you have any question, please do not hesitate to call me.

Action taken by this letter is considered to be within the scope of the current contract (NRC-02-4-001). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in a change to costs or delivery of contract products.

Sincerely,

ORIGINAL SIGNED BY

Abou-Bakr Ibrahim, Project Officer
Geology-Geophysics Section
Technical Review Branch
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards
