Dear Mr. Murphy:

I have received Weston's Geophysical Monthly Progress Report No. 37 for April 1987, summarizing progress under contract NRC-02-84-001.

The "Review of SCP Annotated Outline" and the revised form of Weston's "Quality Assurance Manual" had been received. I will inform you if a meeting with you and your staff to discuss these two reports will be needed.

With regard to the revised report "Survey of Geophysical Techniques for Site Characterization in Basalt, Salt and Tuff", I have looked at the report and discussed few changes on the phone with Dr. G. Jones. NRC intends to publish this report as a NUREG/CR. I am stressing again that you and your staff should devote more effort in finalizing this report before the end of June 1987.

We have requested the Division of Contracts to extend the period of performance of subject contract. They will inform you of the decision and the duration of the extension very shortly.

Action taken by this letter is considered to be within the scope of the current contract (NRC-02-84-001). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in a change to costs or delivery of contract products.

Sincerely,

15/
