P. O. Box 550  
Westboro, MA 01581

Dear Mr. Murphy:

The Geotechnical Branch Quality Assurance staff had reviewed Weston Geophysical Corporation's Quality Assurance Manual and was pleased with the information presented in the manual.

In order to make this manual more applicable to the Waste Management Programs, we suggest that the following modifications be made:

- 1) Change the cover of the manual to identify that this manual is for USNRC and update the cover to reflect the changes.
- 2) On page 20 last paragraph add "persons" so that the sentence should read "person or persons other than ..."
- 3) Under 11.2 Report Review and Approval p. 21 and p. 23 change FSAR/PSAR to appropriate wording (Such as DWM/DOE documents)
- 4) In Figures 1 and 3; identify personnel responsible for the QA program.

Action taken by this letter is considered to be within the scope of the current contract (NRC-02-84-011). No changes to costs of delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in a change to costs or delivery of contract products.
